- You will be diverted to Airbnb login page
- For existing hosts, login as per normal and skip to slide 9
- For new hosts without an Airbnb account, sign up
- You are required to connect using main host credentials. Co host credentials are not accepted for connection

The image shows a screenshot of the Airbnb login page. It features a dark blue button with the Facebook logo and the text "Log in with Facebook". Below it is a white button with the Google logo and the text "Log in with Google". A horizontal line with the word "or" in the center separates these from the login form. The form consists of two input fields: "Email Address" with an envelope icon and "Password" with a lock icon. Below the password field is a checkbox labeled "Remember me" and a link "Forgot password?". At the bottom of the form is a large red button labeled "Log in". Below the "Log in" button is the text "Don't have an account?" followed by a red button labeled "Sign up".

Complete your Airbnb host profile

After you sign up, you need to [complete your Airbnb host profile](#).

Host profile setup recommendations:

Airbnb users are required to have a profile, which other users will take into account when they make their decisions on whose place to book. Even if the rest of your Airbnb listings look fabulous, without an awesome host profile, it's unlikely you'll see the bookings roll in.

A welcoming, trust-inspiring profile can make all the difference when it comes to attracting Airbnb guests. This is how Airbnb stands out amongst the crowd.

Tips to complete your Airbnb host profile

First Name: Put the name of the main contact followed by the property name (recommended) or simply the property name.

Last Name: This won't be displayed publicly. You can put the name of the city your property is located in.

Birthday: Enter the birthday of the GM or reservation manager.

Email: Enter the email address where you want all correspondence to go. This must be the email address from which you respond to messages. If your preferred email address is associated with an existing Airbnb account, be sure to remove your email address from that account before attempting to add it to your new, STAAH-connected account.

Phone number: This must be a landline or mobile phone that you have access to, since it will be used for verification. It cannot be an answering service.

Profile picture: Put a picture of the GM (recommended), reception staff or simply the logo of your property. Do you have an office dog? Show them off too!

Describe yourself: Opportunity to describe your property and its philosophy and why you think guests will have a great stay.

Content

- **Description:** You need to describe your property and what's unique about it. Try to write your Airbnb description as though you're describing your property to a friend - you'll capture an informal yet excited tone that will draw your reader in. Just keep it consistent throughout.
- **Images:** High resolution photos look best, we recommend 4200 x 2700 px @300dpi. Properties with 15 or more photos tend to perform better and Airbnb guests are not only looking for photos of the listing, but of the neighbourhood and local attractions.

Do not put watermarks, logos or text on top of your images.

Property: 10 or more pictures

Room Type: 5 or more pictures including at least 1 picture of the bathroom

You will have the opportunity to write captions for your images by filling in the "Image Label" section in STAAH.

Airbnb Service Fee - From 04 June 2019

- Please go to below link for full details:
 - <https://www.airbnb.co.nz/help/article/1857/what-is-the-airbnb-service-fee?>
 - Summary:
 - Starting 04 June 2019, A host-only fee of 15% will be required for all new* traditional hospitality hosts connecting to Airbnb (except in Japan).
 - Property managers will have a choice of a host-only fee of 14% or a shared host & guest fee. A host-only fee of 14% will be the default fee setting for all new* property managers connecting via software in APAC (except in Japan) and EMEA. These hosts will have the option to switch to the shared host and guest fee, if that better suits their business.
- **Applies to all new host accounts created on and after 04 June. Existing hosts connected to Airbnb will not be impacted at this time*

Wizard - Connecting with Existing Listing

- You will still be diverted to Wizard. You need to go through each tab. Where information is missing, you are required to complete
- When you click on NEXT, if there is any information missing, an error message will be returned.

IMPORTANT: Please do not close window. You must click on NEXT to move to next tab

Fees

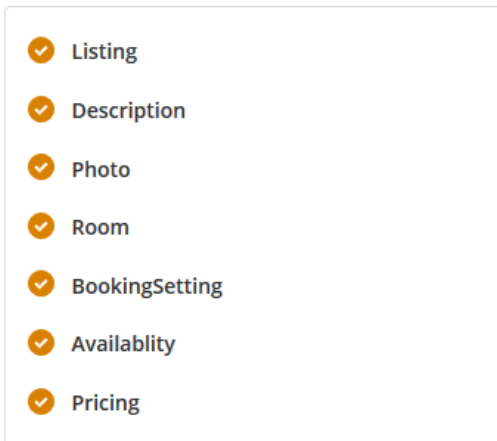

- The setup for various fee type is found in Wizard > Room & Rate Info page
- Fees are managed via channel manager (no option via extranet)
- Any changes needs to be updated in Airbnb wizard and pushed out to Airbnb
- As it is considered part of rates update, changes can be pushed using 'Rates & Availability' sync

Finished?

- If all information processed successfully, the 'Finish' page will look like below.
- Click on FINISH
- Wait for confirmation message
- Inform designated STAAH support team member that you have completed mapping

Status of listing

- Airbnb introduced a non-blocking review process in April 2019.
- This means:
 - All listings submitted are approved immediately
 - No downtime during connection process. Listings remains visible and bookable
 - Airbnb will review listing within 30 days
 - If there are any improvements needed, the relevant comments will be communicated to the homeowner directly
 - The host will automatically have 30 days to fix required improvement needed. After 30 days if no action, they will be delisted
 - The host must take action on their listing to stay listed

Airbnb Mapping Page

- As Airbnb has moved to non-blocking review process, status is automatically 'Approved'. There is no downtime
-  Option to un-map. This action will un-map connection but it does not delete the listing from Airbnb. It simply disable channel manager connection for that particular listing
- Bookable switch allows property to 'De-list' a listing on Airbnb and 'Re-list' when ready
- The Delete option will completely remove mapping in channel manager and delete listing from Airbnb

<input checked="" type="checkbox"/> Deluxe Studio	1	<input type="text" value="24995602"/>	<input type="text" value="1"/>	%	Airbnb	APPROVED				
		Inventory Update : <input checked="" type="checkbox"/>								

Listing rejected

- It is possible for Airbnb to 'Reject' a listing. Usually it is because listing requirements are not met
- The status in STAAH mapping page will show as 'Rejected'
- Hover over the status to see reason
- Where possible, please fix issue and you will need to resubmit listing again
